## *Eco hotels OMH*

Renewable energy sources, saving energy and water, verified healthy food from local OPGs, operating without harmful chemicals... are just some of the prerequisites for the prestigious eco label for family and small hotels. Depending on the level of sustainable business, it can be silver, gold or platinum. By 2030, the European Union wants to reduce the emission of harmful gases by at least 55 percent, which is below the amount of greenhouse gases emitted in 1990, and by 2050, Europe has committed to becoming a carbon-neutral continent. Whether it will succeed depends on all of us!
